

BLUE HERON ENVIRONMENTAL

HYDRO DAM PROJECT SUPPORT

EQUIPPED TO COORDINATE AND SUPPORT ALL
ASPECTS OF YOUR HYDRO PROJECTS.

Acting as a representative for project owners or builders, Blue Heron has the experience necessary to develop and implement your Hydropower Environmental Management Plans.

We ensure that your project obtains all the required permits and training to keep your facility on track and running smoothly.

OUR SUPPORT IS DESIGNED TO

- ▶ Develop and implement Environmental Management Plans
- ▶ Conduct environmental training for employees and contractors
- ▶ Provide on-site support, as needed
- ▶ Perform internal audits/inspections
- ▶ Coordinate and obtain required permits
- ▶ Supply environmental protection products (i.e. sediment control, spill prevention, and emergency spill response)
- ▶ Conduct Species at Risk/Biological studies in support of permits
