

## COMMUNICATION AND CONSULTATION SUPPORT

CREATING A MORE COLLABORATIVE  
AND COOPERATIVE ENVIRONMENT.

Improving communication and project understanding can minimize risks and eliminate the need for grievance mechanisms and costly delays.

We help you satisfy the statutory requirements for good faith Consultation, using proven methods to bridge gaps in understanding.

### OUR COMMUNICATION EXPERTS

- ▶ Develop a consultation plan to meet regulatory requirements;
- ▶ Plan transparent and structured consultation and roundtable meetings;
- ▶ Develop a detailed analysis of technical documents in terms understood by broad audiences;
- ▶ Communicate existing, or planned, environmental protection measures;
- ▶ Meet regulatory requirements related to “reasonable and meaningful consultation” with the environmental aspects of your project; and
- ▶ Assist in reporting to regulatory authorities regarding Indigenous consultation requirements.
