

BLUE HERON ENVIRONMENTAL

ENVIRONMENTAL SUPPORT FOR COMMUNITIES

INDEPENDENT DOCUMENT REVIEW
WITH COMMUNITY CONCERNS IN MIND.

Improving communication and project understanding can help to bring clarity between Indigenous communities and project proponents. We assist communities analyze and summarize scientific and technical documents for general audience understanding.

We are prepared to carry out third party technical reviews with a focus on areas of community concern, including potential impacts to water, fisheries, hunting and trap lines, and overall community wellness.

OUR REVIEW SERVICES

- ▶ Consider land use, traditional activities and areas of cultural and sacred significance;
- ▶ Ensure all environmental concerns related to potential impacts to traditional lands are understood by members of the community;
- ▶ Develop a strategy and schedule for consultation and engagement with proponents; and
- ▶ Prepare a summary report of technical documents, and present findings to Chief and Council, and the community.
