

BLUE HERON ENVIRONMENTAL

EHS MANAGEMENT SYSTEMS

WE DEVELOP, IMPLEMENT, AND MAINTAIN COMPREHENSIVE
MANAGEMENT SYSTEMS TAILORED TO YOUR FACILITY.

Blue Heron staff have the expertise to help you develop a cost-effective, integrated EHS Management System that conforms to ISO 14001 and OHSAS 18001 standards.

We develop site-specific Management Systems designed to manage risks and maintain regulatory compliance, while accounting for the resources available at your facility.

OUR EXPERTS

- ▶ Develop procedures for managing your EHS risks while maintaining compliance with applicable requirements;
- ▶ Provide the necessary training so your staff can effectively implement and maintain the system;
- ▶ Tailor EHS Management Programs to meet your objectives and targets;
- ▶ Develop an efficient and cost-effective document and record control system to meet the needs of your facility; and
- ▶ Conduct regular management reviews, to ensure your systems' ongoing effectiveness, suitability and adequacy.
