

## ENVIRONMENTAL PERMITTING STRATEGIES

LET US HELP YOU AVOID COSTLY  
AND TIME CONSUMING INTERRUPTIONS.

Blue Heron has a proven history of assisting both small and large companies to develop and implement permitting strategies. We will conduct a review of regulatory permitting requirements for your new, expanding or closing operation to provide permitting expertise integral to project planning initiatives. We will work in close collaboration with your company representatives and the appropriate regulatory agencies to facilitate the timely issuance of all permits, thereby avoiding costly scheduling delays.

### OUR EXPERTS CAN PERFORM

- ▶ Full life-cycle environmental studies;
- ▶ Species at Risk reviews, assessments and permitting;
